- forward-thinking
- paternalistic
- efficient and effective policies (due to absence of a true parliamentary opposition)
- prospering economy as one of the leading financial centers globally, with a robust banking sector, active stock exchange (SGX), and a wide range of financial services.
- Highly diversified economy with its key sectors including logistics, manufacturing, financial services, information technology and trade

CPF- Social security system that relies on individuals having mandatory savings, which are then managed and invested by the Central Provident Fund

inequality still exists:
xenophobia- people feel that foreigners are straining their resources: govt introduces the FCF (fair consideration framework), yet concerns of discrimination still persist.
